

Parents and Guardians....

Does your child have a food allergy or intolerance?

We need to know! 😊

Please fill out the information form included on this website.

Please have your Doctor fill out the Medical Statement Form.

Turn them in to our secretary, school nurse, or cafeteria.

We are required to have a medical statement in order to adjust any child's meal.

If you have a temporary situation...teeth lost...dental work....please send a note with your child explaining the situation and how long you anticipate for it to last. We will do everything we can to try and substitute appropriate soft foods when we can. You can always call me to discuss any concerns and to see what allowances can or can't be made.

Thank You,

Michelle Triplett
